

COWKING: The Viking-Cowboy Meme Token

Date: May 25, 2025

1. Overview

COWKING is a meme-based token built on Ethereum, merging the fierce legacy of Norse warriors with the rebellious soul of the Wild West.

The goal is cultural, comical, and community-driven - bringing Vikings and cowboys together through memetics and on-chain identity.

2. Tokenomics

Total Supply: 1,000,000,000 COWK

Decimals: 18

Minting: Only at deploy. No further minting possible.

Contract verified on Etherscan.

3. Roadmap

- Token deployed and verified
- Logo and listing PR sent to TrustWallet
- Whitepaper and website release
- DEX listing and liquidity setup
- Community marketing and meme challenges

4. Contract & Security

COWKING is based on the industry-standard ERC-20 contract, with immutable cap and no owner privileges.

Contract address: 0x402610e0C59Bf7549EF053DD9E7c45Ad4fb02664

Audits: Not audited. Community use only.

5. Philosophy / Memetics

COWKING isn't a utility token - it's an identity statement.

It stands at the crossroad of mythology and Americana.

If you wear a horned helmet and a Stetson in the same day, this token is for you.

COWKING: The Viking-Cowboy Meme Token

6. Legal Disclaimer

COWKING is not an investment product. It is a meme token without intrinsic value.

No guarantees are made about future value, price action, or exchange listings.

Always do your own research. This is entertainment only.
